

The message of the dragonfly:

I'm ready for positive change.

A Little Something To Know...

Do You Watch For Your Messengers? The world's Indigenous people have taught us that everything in nature holds a gentle yet energetic and powerful message. The message of the Dragonfly is one of positive change. When you see one, acknowledge the gift it brings. Hold on to your hat when you see them in multitudes across your lawn. Big things are about to happen in the best way possible.
